The Corporation  
Designing Opportunities Since 2018

Award-winning hiTechMODA Productions combines traditional fashion runway shows with the latest innovations and the new “thinking of fashion”. We are a cutting-edge runway production house focusing established, emerging, and Indie fashion designers, identifying current marketing trends, plus aligning with new thought leaders who are committed to transforming the way industry operates today. We lead in the industry by creating opportunities to market and advertise our designers and assist them in elevating their brands.

After the disruption in the supply chain and brick and mortar store closings, how designers are able to reach their audience has radically changed. There are opportunities in disruption, but you have to be able to pivot quickly. We believe the future of fashion is rethinking how business is done; working towards sustainability, and available to anyone anywhere, and empowering consumers and designers/brands alike. From our first season in 2018 to now, our mission has been to inspire, empower and encourage anyone who brings their talent to our runways wherever we are. We create events that pull together elements of our designers' creativity and express those on the runway. We work to create opportunities specifically tailored to you. hiTechMODA does this by providing a professional, affordable runway with high-quality production at state of the art and unique venues, complete with professional photography and video.

Our mission is designing opportunities and everything we do is with that in mind. We specialize in providing avenues for emerging new-to-market and young prodigy designers, up and coming and aspiring models of all ages, shapes, and sizes, photographers, and videographers. In addition to this, we also specialize bring in a host of interns and volunteers from some of the region's most prestigious fashion design and business schools.
